SUMMARY

Senior QA Engineer with over 5 years of experience in IT, including 3 years focused on software testing and quality assurance. My primary development language is Java, and I have experience in test automation using Selenium WebDriver, JUnit, Rest Assured, and Cucumber. I am proactive and research-driven, always seeking to improve processes and contribute to the delivery of high-quality solutions.

MATHEUS WACHTLER

SR QA ENGINEER

EXPERIENCE

SR QA ENGINEER

Sep/2024 - Present

Avanade

Working at one of the world's leading IT consulting companies, I am responsible for ensuring the quality of technological solutions for clients of all sizes. Since the beginning of my journey at Avanade, I have been working with major financial sector clients in Brazil.

MID LEVEL QA ANALYST

Sep/2022 - Sep/2024

Serasa Experian

As a Mid-Level QA Analyst in the development team, I actively participate from the beginning of the project until the delivery of developed functionalities in the client's environment. I work exclusively for a major telecommunications client in Brazil.

JR SUPPORT ANALYST

May/2021 - Sep/2022

Serasa Experian

In this role, I was responsible for identifying, logging, addressing, and escalating issues related to performance, intermittency, and unavailability of services. I also worked with tools like Postman, ServiceNow, and Jira to resolve incidents.

SUPPORT ANALYST (L1)

Aug/2019 - Jan/2021

Tecnocomp Tecnologia e Serviços

As a Support Analyst (L1), my role was to resolve, analyze, and forward tickets created by clients on service portals (ServiceNow and GLPI), in addition to providing support via email and VoIP. I also integrated systems for new clients and learned about the ITIL methodology.
